Samuvel L

DevOps Engineer & System Engineer

Azure-focused DevOps & System Engineer at Tata Consultancy Services with 20+ months building and automating Kubernetes, Docker, Ansible, Jenkins, GitLab and Azure DevOps environments. Ranked **top 2% (#6/279)** in TCS Ignite onboarding. AZ-104, AZ-900 & GitHub Copilot certified. Full-stack (Next.js, TypeScript) and UI/UX background. Seeking a hands-on DevOps / Cloud Engineer role.

Core skills: Azure (VMs, networking, storage, IAM, CLI) · Kubernetes · Docker · CI/CD (Azure DevOps, GitHub Actions, Jenkins, GitLab CI) · Ansible · Git

EXPERIENCE

System Engineer
Jan 2026 – Present
Tata Consultancy Services
- Lead design and delivery of advanced DevOps training covering Kubernetes, CI/CD, and Azure
- Build challenge environments across Docker, Kubernetes, Ansible, Jenkins, GitLab, and Azure DevOps
- Develop training curricula aligned with real-world production requirements

Assistant System Engineer
Sep 2025 – Dec 2025
Tata Consultancy Services
- Designed and delivered Azure cloud training covering VMs, networking, storage, IAM, and Azure CLI
- Created hands-on lab exercises for provisioning and configuring Azure environments

Assistant System Engineer Trainee
Jan 2025 – Aug 2025
Tata Consultancy Services
- Built hands-on challenge environments using Docker, Kubernetes, Ansible, Jenkins, and GitLab
- Designed training content on Docker architecture, Kubernetes orchestration, and Azure DevOps pipelines

Graduate Trainee
Sep 2024 – Dec 2024
Tata Consultancy Services
- Ranked **#6 out of 279** in TCS Ignite onboarding — top 2% of entire cohort
- Selected for Talent Development team based on exceptional performance

Freelance Graphic Designer
Sep 2022 – Sep 2024
Self-Employed
- Delivered logo, web, and UI/UX design projects over 2 years using Figma and Adobe Photoshop

PROJECTS

DevOps Challenge Environment
2025 · Internal TCS

Designed broken Kubernetes and Docker environments for TCS engineer assessments. Engineers diagnosed pod crashes, misconfigured services, and failed CI/CD pipelines.

Kubernetes · Docker · Ansible · Jenkins · GitLab · Azure DevOps

VizualizeHub
Feb – Apr 2024 · vizualizehub.vercel.app

Full-stack SaaS for AI-powered image editing with user authentication and credit-based billing. Deployed with Vercel CD.

Next.js · TypeScript · MongoDB · Cloudinary · Clerk · Vercel

Feedback System
Dec 2023 · feedback-system-online-eight.vercel.app

Anonymous feedback web app with real-time email delivery, form validation, and EmailJS integration for instant notifications.

React · JavaScript · EmailJS · Vercel

Student Attendance Management
Dec 2023 – Jan 2024 · UI/UX Design

End-to-end Figma design with real-time dashboard, analytics charts, and a three-role login system (Admin, Teacher, Student) with a complete design system.

Figma · UI/UX · Design System · Prototyping

EDUCATION

B.Sc Computer Science — 89%

Sankara College of Arts & Science — 2021 – 2024
